Strategy

YADAY Capital I targets European early-growth rounds ranging from €2M to €8M tickets, with a focus on category-defining founders operating in industrial AI, climate-tech and B2B SaaS.

Our edge stems from a decade of operating support inside the AOAOA family office, with 140+ direct deals and 17 fund-of-funds positions deployed across Europe, the United States and Israel.

Reserves are sized to support follow-ons through Series B, preserving ownership during compounding growth phases.
